

National Retirement Security Week Coming Soon!

What Is National Retirement Security Week?

It is a week set aside each year to promote the importance of saving for retirement, no matter what your age.

When Is It?

October 21 – October 27

What Will The County Be Doing?

For 3 weeks, you will be receiving daily emails with information regarding saving for retirement. The material will come from the “Your Whole Story” campaign sponsored by the National Association of Government Defined Contribution Administrators (NAGDCA), an organization that promotes public sector defined contribution plans.

In addition, MassMutual (the County’s Deferred Compensation Record Keeper), Hyas Group (the County’s new Deferred Compensation Consultant), and MHN (the County’s Employee Assistance Program vendor), will be hosting different workshops on deferred compensation and financial health topics, throughout the week, at multiple County locations.

Why Should This Matter To Me?

Currently, only 45% of County employees are contributing into deferred compensation. While you may have a pension, it is still important to make plans for additional savings in your retirement (e.g. your medical benefits, traveling, unexpected expenses, etc.). It is important to start taking steps today to ensure your future financial health.

To promote this week, there will be prize opportunities for those that attend a workshop, sign up as a brand new participant, and/or increase current contribution.

Stay Tuned For More Information In The Upcoming Weeks!

If you have any questions, contact Human Resources Benefits at (209) 468-9987.
