

Be prepared.

Get a no-cost flu shot

at any pharmacy in your network.

Getting a flu shot can help you stay healthy this season. That's why your prescription plan covers flu shots at more than 63,000 convenient locations, including CVS Pharmacy®.* **No copay.** No cost to you.** Just take your prescription card and valid photo ID.

Visit [Caremark.com](https://www.caremark.com) to find a vaccine pharmacy in your network.

*Flu shots and vaccines may not be available in all pharmacies at all times. Call for availability and to make an appointment, if needed. Most vaccines require a prescription (except for the flu shot). The flu shot and many vaccines to treat common illnesses are generally covered under the Affordable Care Act by non-grandfathered group health plans and non-grandfathered individual and group health insurance coverage typically with no cost sharing if provided by an in-network provider, consistent with specified dosage limits and satisfaction of age and other vaccine specific requirements. Other restrictions may apply. Check with your health plan if you have any questions about your benefits.

**Copayment, copay or coinsurance means the amount a member is required to pay for a health care service in accordance with a Plan, which may be a deductible, a percentage of the price, a fixed amount or other charge, with the balance, if any, paid by a Plan.

Your privacy is important to us. CVS Caremark employees are trained regarding the appropriate way to handle your private health information.
